Yokota AB, Japan
20 0001(I) DEC 21

FRAGO-006 to Force Public Health (FPH) Order 21-003.

1. Situation. No Change.
2. Mission. No Change.
3. Execution.
 - a. Commander's Intent. No Change.
 - b. Concept of the Operation. No Change.
 - c. Tasks to USFJ Service Components and Supporting Commands. No Change.
 - (1) PHE for Japan. No Change.
 - (2) HPCON ALPHA Measures. No Change.
 - (3) Cloth Face Coverings. No Change.
 - (a) Unvaccinated Personnel. No Change.
 - (b) Fully Vaccinated Personnel. No Change.

1. **CHANGE:** Fully vaccinated USFJ-affiliated personnel (who are two weeks beyond their final dose) are no longer required to wear a mask while indoors or outdoors on USFJ installations when community transmission in the local area is below the substantial level, as defined by the CDC.

Local commanders are authorized to require personnel to wear masks on installation. USFJ-affiliated personnel who are not fully vaccinated will continue to follow applicable USFJ mask wear guidance, including continuing to wear masks indoors.

a. **ADD. Individuals will wear a mask in all public areas and USFJ facilities until receipt of a negative viral test, either a GOJ or USG test administered in Japan. An international entry test at a commercial airport meets this requirement. Mask wear off base is still required.**

b. No Change.

2. – 5. No Change.

(c) No Change.

(d) No Change.

(4) – (13) No Change.

d. Coordinating Instructions.

(1) Service Secretary Specific Travel Guidance. No Change.

(2) Transient Aircrew. No Change.

(3) Travel out of the Japan AOR. No Change.

(4) Travel into the Japan AOR. No Change.

(5) Transiting Japan. No Change.

(6) Space Available (Space A) Travel. No Change.

(7) ROM Procedures.

(a) **CHANGE:** Vaccinated. All USFJ affiliated personnel arriving in Japan from another country that are fully vaccinated, to include individuals on Temporary Duty, shall travel directly to their domicile using non-public transportation and will, at a minimum, be restricted to a U.S. installation(s) for **14 days** commencing upon arrival and ending **336 hours** later. After **day 14**, individuals that have a negative viral test may have the restriction to U.S. installation (or their residence if living outside an installation or if denied access to a USFJ installation) removed. **Individuals will wear a mask in all public areas and USFJ facilities until receipt of a negative viral test, either a GOJ or USG test administered in Japan. An international entry test at a commercial airport meets this requirement. Mask wear off base is still required.** The following procedures apply:

1. No Change.

UNCLASSIFIED

2. **CHANGE:** The individual must remain asymptomatic for the duration of the vaccinated ROM period of **14 days**. If symptoms occur, the individual will coordinate with the base PHEO or competent medical authority and follow COVID-19 procedures for isolation/quarantine.

3. **CHANGE:** On or after day 5 (240 hrs after arrival in the Japan AOR), vaccinated individuals will be required to take a viral test (defined as antigen or PCR; the type to be selected by the installation PHEO) and be in receipt of a negative test result to complete the initial **14-day** vaccinated ROM period. If the test is positive, the individual will transition to isolation status.

4. **CHANGE:** Individuals, whose domicile is off-installation or located at an U.S installation other than their assigned location, may conduct travel non-stop between their domicile and place of work on a U.S. installation via POV/GOV or cycling/walking for the full **14 days** after arrival in country. Off-installation the use of mass transit is not authorized.

5. **CHANGE:** During the **14-day** vaccinated ROM period, fully-vaccinated individuals, including fully-vaccinated dependents, may have access to all on-installation facilities.

6. No Change.

7. No Change.

8. No Change.

(b) Unvaccinated. No Change.

(c) **CHANGE:** Individuals within 90 days of a positive SARS CoV-2 test. Individuals within 90 days of a positive SARS CoV-2 test. All DoD uniformed personnel, members of the civilian component, and individuals with SOFA-status arriving in Japan from another country that have tested positive to SARS CoV-2 within the previous 90 days will follow a ROM length of time based on their vaccination status except for testing requirements. After completion of ROM, asymptomatic individuals may have the restriction to their installation (their residence if living outside an installation or if denied access to a USFJ installation) removed. ROM exit testing is not required. **Individuals, who are fully vaccinated but are within 90 days of a positive SARS CoV-2 test, will**

APPENDIX 4 (ROM PROCEDURES) TO ANNEX C (OPERATIONS)

1. **CHANGE.** All USFJ affiliated personnel arriving in Japan from another country shall travel directly to their residence and depending on their vaccination status will follow the prescribed ROM procedures below. All individuals shall utilize only their assigned/home installation, with the exception of personnel on an intermediate stop while awaiting onward movement to their home installation or duty assignment. All ROM procedures will be ~~10 days (240 hours) for fully vaccinated individuals or~~ 14 day (336 hours) **for unvaccinated and fully vaccinated individuals.** This includes both official and non-official travel. **Individuals will wear a mask in all public areas and USFJ facilities until receipt of a negative viral test, either a GOJ or USG test administered in Japan. An international entry test at a commercial airport meets this requirement. Mask wear off base is still required.** Travel within Japan does not incur a ROM by virtue of this order.

a. – b. No Change.

2. – 8. No Change.

9. Restriction of Movement (ROM) – Exit Testing. No Change.

a. No Change.

b. No Change.

(1) No Change.

(a) Fully-vaccinated individual(s) who have completed the ROM period and have a negative the viral test (**administered on or after day 5**) will be released from the restriction to a U.S. installation. If the test is positive, they will transition to isolation status.

(b) Unvaccinated individual(s) who have completed the 7 day ROM, and the viral test (**administered on or after day 5**) is negative, will be able to transition to the 7-day restriction to their associated U.S. installation. If the test is positive, they will transition to isolation status.

(2) No Change.
